RABBIT CONCEPT NON-EXCLUSIVITY POLICY

This policy applies to all farms, processors and associated stakeholders adhering and/or indirectly related to the Rabbit Concept Animal Welfare Program, as well as the program Owner Vogely BV.

This policy establishes that participation in the protocol is voluntary, non-exclusive and open to all interested stakeholders that are willing and able to comply with the standard’s guidelines without any form of discrimination and in accordance with Directive (EU) 2024/825 from 28th February 2024.

Furthermore, compliance with the Rabbit Concept Program does not restrict producers and suppliers to engage in any other certification scheme, standard and/o commercial agreement with other clients or markets. In other words, stakeholders are free to adopt and comply with additional welfare standards or certification schemes of equivalent or stricter requirements and/or supply products to multiple buyers, markets or programs.

No entity shall be excluded on the basis of size, location, commercial relationships with third parties or market orientation. Exclusion of participation may only take place under circumstances described in the latest version of the standard non-compliance guidelines with sufficient evidence of such non-compliance(s).
